DETAILED ACTION

Election/Restrictions

1. This application is in condition for allowance except for the presence of claims 25-36 directed to inventions II and III as noted in the restriction requirement and non-elected with traverse. However, since the application is in condition for allowance, except for these withdrawn claims, claims 25-36 have been cancelled to pass the application to issues. The traversal of the claims was addressed in the Office action of June 12, 2006 and the election was made final without any further persuasive arguments proffered by the applicant.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: The closest prior art reference was applicant's own patent US 6,574,887 which included the ball and socket limitations of claim 14. Applicant has since filed a terminal disclaimer, which has obviated the double patenting rejection set forth previously. Furthermore, none of the other references of record, either alone or in any proper combination, teach or disclose a ball and socket linking means linking a tongue portion to the vamp allowing the tongue to be rotated to the top or bottom side before tightening of the laces and fastening the shoe to the user's foot, thereby selecting the desired look provided by the side of the tongue chosen.

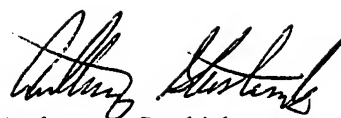

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Anthony D. Stashick at telephone number 571-272-4561.
